

## Impact pathway

### Impact Pathway Table with Indicators:

Stage	Outputs	Outcome	Indicators
<b>Outputs</b>	- Comprehensive Research Report	- Increased Utilization of Healthcare Services	- Number of healthcare facility visits
	- Best Practices Guidelines	- Enhanced Community Empowerment	- Community participation rates
	- Training Modules	- Improved Knowledge and Health Literacy	- Pre- and post-training knowledge assessments
	- Community Engagement Strategies	- Strengthened Healthcare System	- Healthcare provider competency assessments
	- Data and Monitoring Tools	- Sustainable Community-Led Initiatives	- Number of community-led initiatives launched
	- Community Health Workshops	- Data-Driven Decision-Making	- Utilization of data for decision-making
	- Trained Community Health Workers	- Economic Empowerment	- Household income and economic development
	- Community-Led Health Initiatives	- Social Cohesion and Community Development	- Community collaboration and development projects
	- Databases and Baseline Health Metrics	- Environmental Benefits	- Indirect environmental benefits
	- Project Website and Dissemination Platforms		- Number of website visitors, workshop attendees
<b>Outcome</b>	- Increased Utilization of Maternal and Child Healthcare Services		- Percentage increase in service utilization
	- Enhanced Community Empowerment		- Community perception of empowerment
	- Improved Knowledge and Health Literacy		- Healthcare provider and CHW knowledge levels
	- Strengthened Healthcare System		- Capacity assessment of local healthcare system
	- Sustainable Community-Led Health Initiatives		- Longevity and impact of community-led initiatives
	- Data-Driven Decision-Making		- Evidence of data-informed decision-making
	- Economic Empowerment		- Income levels and economic indicators
	- Social Cohesion and Community Development		- Community engagement and development initiatives

	- Environmental Benefits		- Indicators of indirect environmental benefits
