

MAGEINDA'S TRAVEL & TOURS

Dr.Samba Sesay

Manager - Programme Development and Implementation

NSTIC

Freetown, Sierra Leone

Dear Dr Samba,

**Subject: Strengthening Agri Processing and Preservation Industries - Our Pledge of Support**

I am writing on behalf of MAGEINDA'S TRAVEL & TOURS to express our unwavering commitment to and enthusiasm for the proposed agricultural project aimed at enhancing agri-processing and preservation industries for local market expansion and export development. We firmly believe that this project holds the potential to bring about transformational changes, and we are eager to join hands with you in this endeavor.

Agriculture is the backbone of our nation's economy, and it is clear that the development of agri-processing and preservation industries is critical for sustainable growth, food security, and economic diversification. Your project aligns harmoniously with our company's values and objectives, which include fostering local communities, improving product quality, and facilitating the growth of export markets.

Here's why we are excited about this initiative:

1. **Economic Advancement:** By enhancing local agri-processing and preservation industries, this project is set to create new job opportunities, increase income prospects for farmers, and significantly contribute to overall economic development.
2. **Food Security:** Improved food preservation and processing methods will lead to reduced food wastage, stabilized food supplies, and enhanced food security within our region.
3. **Export Growth:** This project places our region favorably in international markets, opening doors to new export opportunities and strengthening our nation's global trade standing.

4. Empowerment and Innovation: The emphasis on training, education, and knowledge sharing is expected to empower local stakeholders, building their capacity, and promoting entrepreneurship and innovation within the agricultural sector.

As a committed private sector partner, we pledge to contribute to this project's success through a range of avenues, including:

- Investment: We are open to exploring investment opportunities in the agri-processing and preservation industries to bolster local production and value addition.
- Market Access: Our company can assist in facilitating market access for the project's products, both in local markets and potentially in export markets through our established network channels.
- Transport Collaboration: Giving transport access (through hotel bookings and vehicle access) during on research and development initiatives to innovate and enhance agri-processing methods is a priority for us.

We are excited by the immense potential of this project and are ready to work hand in hand with your organization and the project team to bring its goals to fruition. We believe that by combining our strengths and resources, we can drive substantial progress in our local agri-processing and preservation industries, thereby making a significant contribution to the well-being of our communities and the growth of our nation's agricultural sector.

Please do not hesitate to reach out to us to explore specific ways in which we can further support this project. We are wholeheartedly dedicated to its success and eagerly anticipate a fruitful partnership.

Thank you for considering our offer of support, and we are eager to embark on this meaningful journey together.

Sincerely,

Michaella Mageinda Forde
