## Skills

- 
- Research skills (Excellent)
  - Problem solving ( Excellent)
  - Communication skills (Excellent)
  - Teamwork skills ( Excellent).

---

## Experience

- 

- 
- Research on the chemical composition of locally produced rice.
  - Conducted research on the chemical composition of different varieties of locally produced rice in Sierra Leone
  - We Analyzed rice samples using a variety of laboratory techniques to determine their nutrient content, contaminant levels, and other chemical properties.
  - Our findings were presented to the lecturer in charge as research report and we were graded accordingly.

---
